PROFILE

Proven Information Technology Professional, with 3+ years of experience across multiple different domains of IT. Strong troubleshooting and problem solving skills, along with a passion and drive to continue to learn and expand my ability in information technology.

EXPERIENCE

Cybersecurity & Networking Assistant

2024- 2025

Monitored and analyzed WOU's built-in SIEM, engaging the proper due diligence, documentation and escalation when needed. Configured and used Cisco enterprise grade software and hardware solutions to ensure compliance of policy and protection of PII and financial property

Assisted in building and integrating smart classroom instructor stations complete with Crestron Processing, Cisco Networking and Various A/V equipment. Completed a wide variety of support requests ranging from networking, to printer, to physical hardware troubleshooting

Broadcast Director

2021-2024

Held a standard of professionalism and responsibility as the Lead Athletics Broadcast director for multiple years to allow for best communication with collegiate athletics staff and fans. Helped Initiate and lead a new football viewing experience as our department took responsibility for the primary WOU football broadcast for the first time in 15+ years.

Engage in the Set-up and Strike of Broadcast Packages, and A/V Equipment. Lead a team of 5+ Camera Operators over a total of 200+ Athletic events over a 3 year time period.
